### HOUSING

If a patient is **literally homeless** as HUD defines “homeless” as “a person sleeping in a place **not meant** for human **habitation** (e.g. living on the streets for example) OR living in a homeless emergency shelter. Grey Area: this may include a person living in an RV only if they are missing one of the necessary utilities defining residence; example: RV with water and electric but no sewer or RV with sewer and water but no electric is considered homeless.

Not Considered Homeless:

- Couch-surfing
- Staying in a motel
- Staying at a family member’s house, even if it’s only temporary.

If the person is **literally homeless**, they or the clinician can call the Community Housing Network Homeless Hotline @ 509-888-9035 for an over-the-phone intake.

The person will be scored and placed in a housing pool.

Make sure the patient has an active phone number, if they are called and don’t answer, they are skipped and off the list.

**There is little to NO funding right now.**

**It will take at least 7 – 12 months to get assistance for housing.**
